KompetenzCenter Wirtschaft BY Dorothee Schenten is the economy's partner in the Ruhr area - the fifth largest conurbation in Europe. Our markets are enterprises in the service sector, in development, in research and high tech, as well as in the logistics, planning and production sectors at home and abroad.

We cooperate intersectorally with entrepreneurs who appreciate new business contacts. All our partners receive individual support service and become part of a valuable, broadly-based Europe-wide network.

Our cooperation with a multitude of companies, decision-makers and executives builds the basis for product scouting and customer acquisition. We accompany the development of strategies and concepts to access new markets, as well as your innovative business ideas.
